## PROFESIONAL SUMMARY

Results-driven **Full Stack Developer** with hands-on experience building scalable web applications using modern technologies including **ReactJS**, **NextJS**, **NodeJS**, and **FastAPI**. Proficient across the full development stack — from designing responsive frontends to architecting **RESTful APIs** and managing **relational and NoSQL databases (PostgreSQL, MariaDB, MongoDB)**. Demonstrated ability to deliver real-world solutions through a Frappe Developer internship, where I built LMS and e-commerce systems with integrated payment and shipping APIs. Adept at working with **Git**, **Linux**, and **agile workflows**, with a keen eye for writing clean, secure, and maintainable code.

## TECHNICAL SKILLS

- **Python, C++, Java, TypeScript.**
- **FastAPI, FrappeFramework (Python).**
- **ReactJS, NextJS.**
- **NodeJS, ExpressJS.**
- **HTML, CSS, JavaScript.**
- **PostgreSQL, MariaDB, MongoDB**
- **Git, Github, Linux, Postman, VS code**

## EXPERIENCE

### Assistant – Export Documentation

July 2024 – Jan 2026

*Mediterranean Shipping Company (MSC) Service Center*

- Managed Bill of Lading (B/L) documentation, ensuring compliance with international shipping regulations and company policies.
- Processed Dangerous Goods (DG) / hazardous cargo bookings, verifying documentation and regulatory requirements for safe transportation.
- Managed VIP customer bookings, ensuring priority processing and strict documentation standards.
- Handled export documentation for USA and China Shipments, maintaining high accuracy in shipment records.
- Assisted in training new employees, explaining documentation workflows and operational procedures.
- Conducted quality audits of shipment bookings to identify discrepancies and maintain compliance documentation.

### Frappe Developer Intern

Mar 2024 – Apr 2024

*Aaimaa Web solutions* 

- Developed RESTful API endpoints using **Frappe Framework** for a **Learning Management System (LMS)** and **E-commerce platform**, enabling seamless data exchange between frontend and backend.
- Implemented core LMS features including **examination and assessment modules**, allowing students to take tests and receive results within the platform.
- Developed **Ecommerce system** for selling educational things like books, e-books etc.
- Integrated **RazorPay** as well as **ShipRocket APIs** for payment and product shipment in ecommerce system.
- Ensured compatibility, scalability, and reliability of both systems through collaborative testing and thorough documentation.

## PROJECTS

### 1. HD Wallet — Web-Based Crypto Wallet

[Jan 2026]

- Built a web-based **Hierarchical Deterministic (HD) Wallet** supporting both **Solana** and **Ethereum** blockchains, enabling users to manage multiple crypto accounts from a single seed phrase.
- Implemented **BIP-39 mnemonic seed phrase generation** to deterministically derive wallet addresses, following industry-standard cryptographic protocols for key management.
- Developed a clean, responsive UI using **ReactJS** and **TypeScript** (with Vite), allowing users to generate wallets, view public addresses, and manage multiple accounts per blockchain.
- Applied strong typing with TypeScript throughout the codebase to ensure reliability and reduce runtime errors in security-sensitive cryptographic operations.
- **Tech Stack: ReactJS, TypeScript, Web3.js , Solana, JavaScript**

### 2. School CRM System

[Feb 2025]

- Designed and developed a full-stack **School Customer Relationship Management (CRM)** system to streamline school operations including student management / fee tracking / staff coordination / communication
- Built a RESTful backend API using **Node.js** and **Express.js**, with structured routing and modular architecture to handle core CRM functionalities.
- Implemented authentication using JWT / role-based access control for Admin, Teacher, and Student roles ensure secure and scoped access to resources.
- **Tech Stack: Node.js, Express.js, JavaScript, MongoDB**

### 3. Passionates Social Media

[March 2024]

- Web application dedicated to **uniting passionate individuals** from all walks of life, offering a dynamic platform where creativity, inspiration, and collaboration converge.
- Developed **real-time** chat using **socket.io** for users to chat with each other.
- Implemented robust security by encrypting passwords as well as **JWT tokens** for stateless server.
- **Tech Stack : React, Node, Express, MongoDB**

## EDUCATION:

### MSc Computer Science - Pursuing

GHRISTU Pune.

**July 2024 – Jun 2026**

*Wagholi, Pune, MH, India*

### BSc Computer Science - CGPA - 8.90

New Arts Commerce and Science College Ahmednagar.

**June 2021 – May 2024**

*A. Nagar, MH, India*

### Higher Secondary in IT Science - Percentage - 80.7%

Shri Dnyaneshwar Mahavidhyalaya Newasa.

**Aug 2019 – May 2021**

*Newasa, MH, India*

## ACHIEVEMENTS

- Completed a **Frappe Developer internship** where independently built an LMS and e-commerce system integrated with RazorPay and ShipRocket APIs from scratch.
- Awarded **First Prize in Debating** at the college annual function, reflecting strong communication and presentation skills.
- Maintained a strong academic record with a **BSc CGPA of 8.90** throughout three years of Computer Science studies.
